Sir:

This communication is responsive to the Restriction Requirement dated September 30, 2002 for the above-captioned application.

In response, the Applicants hereby elect Group XXVI, claims 1-4, 6-9, 21, and 22, drawn to a method of promoting hematopoietic cell multiplication, comprising administering an effective amount of CXCR4 antagonist to hematopoietic cells, wherein said hematopoietic cells are *in vivo* and the CXCR4 antagonist is selected from the group consisting of a peptide set forth as SEQ ID NO: 1-5.

The above election is made with traverse, and the Examiner is urged to regroup and examine all of the claims of the present application together for the asserted reason that it would not be an undue burden on the Office to examine all of the claims of the application together.
